

Year 4

Literacy

This term in Literacy we shall explore a range of genres through our cross curricular themes.

This will include persuasive writing and explanation texts.

Science

In science we will be exploring teeth and the digestion system. Following this, children will be looking at habitats.

Numeracy

In Year 4, we will continue to work through the National Curriculum objectives. We will be covering topics such as money and measure. We will also be focusing on group and individual targets.

P.E.

Children will begin swimming this term. Every Monday they will be required to bring a swimming kit, swimming hat and £1.00 to participate in the lesson. Other aspects of the PE curriculum will be taught by first-touch on a Wednesday.

Design Technology

This term we will be cooking and preparing soup to help develop our understanding of nutrition .

Art and Design

In art, we shall be exploring collages, relating to habitats of various animals. We will also be developing our observational drawing skills in still art. about how best to visualise sound in art.

I.C.T.

We will be looking at the school scheme of work in ICT based on the new curriculum. They will develop their internet skills and editing work using Microsoft Word and Publisher.

French

In French this term, we will continue learning new vocabulary for conversational French.

Music

In music, we will be learning about rhythms, clapping and improvised musical notations. We will also be composing elements that fit with the Habitats of the Animals.

Spring Term
